# HEADQUARTERS FOR EVERYTHING IN PANSIES. WHOLESALE PRICE LIST. NEW CROP 1898 SEED.

The half-tone engravings on last page, as well as the one on this page, were made from photos taken of our pansies as grown under favorable conditions from our seed. Each has been greatly reduced from the original. For size and quality of bloom they will speak for themselves. Our manager has had twenty-two (22) years experience with pansies and other florists flowers and this long practical knowledge is reflected in the following magnificent collection of varieties, the largest and most complete list ever published. The descriptions are from notes taken of our blooming plants. Our stock is seeded by *pansy specialists*, in *special pansy climates and soils*, some twenty sources in Europe and at home. We have "Everything known in Pansies" and therefore offer many kinds that cannot be had elsewhere. By rigid and fixed methods the quality of our stock and blends is ever improving.

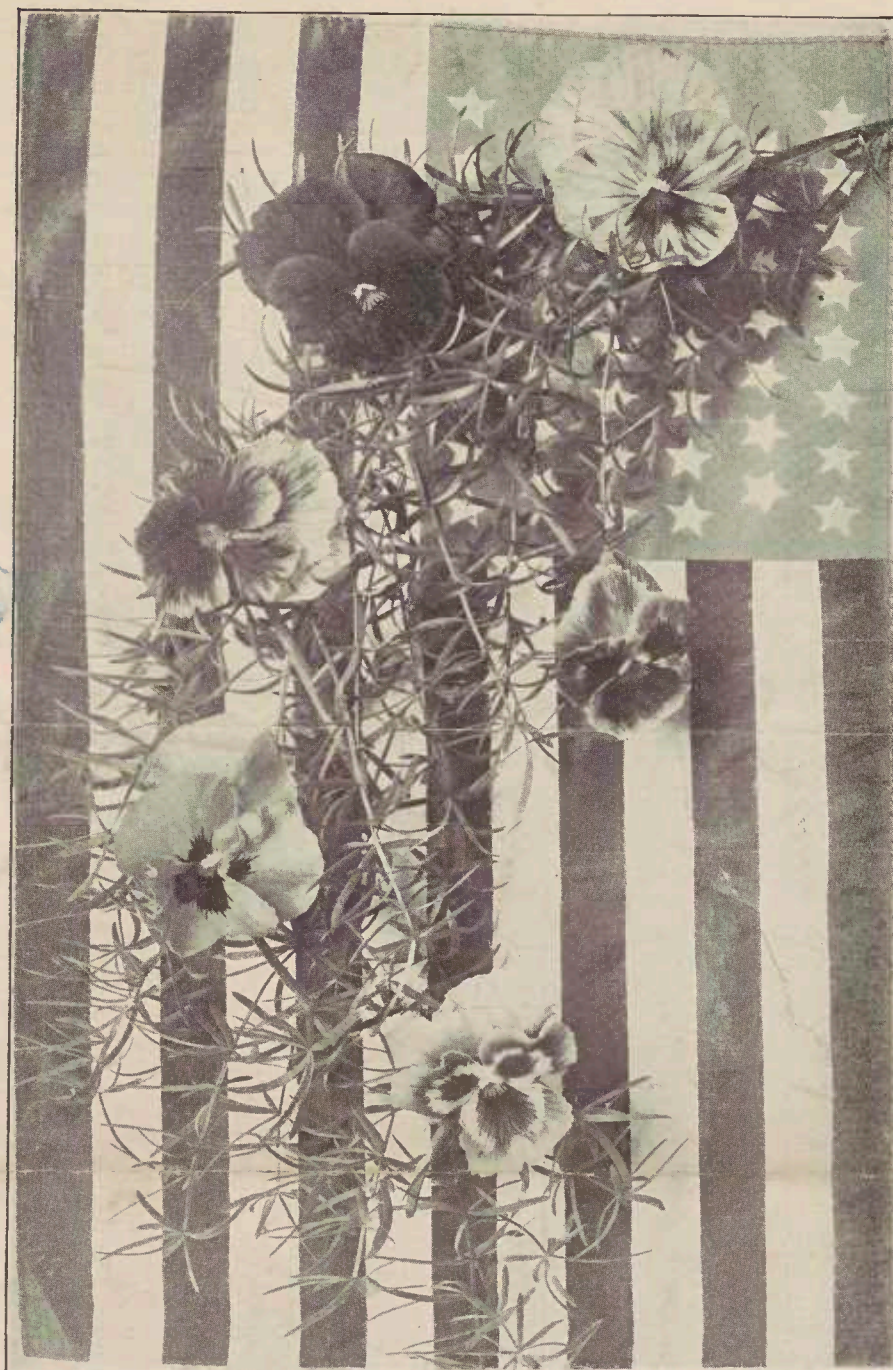

We furnish many thousand Florists with their entire supply every year, with perfect satisfaction. To those who never planted our seeds we suggest that they take advantage of the

for 1893, much improved, but still offered for the old price \$1.75. It comprises one regular packet each of 125 seeds. (in all 7,500 seeds) of the sixty kinds and strains enumerated in section 2, on next page. The actual value of this collection of sixty packets at our wholesale list price is \$1.26 and at the regular seedsmen's prices would cost over \$6.00, and at other pansy specialist's 1000 seed rates, for mixtures would cost over \$1.00. Our net price is only \$1.75, prepaid on the following liberal terms. **If you will send us your name and address on the accompanying Special Order Blank, we will forward at our expense, by return mail, or any date you name, this, the finest collection of Pansy seed ever offered, and you need not pay for it until received and planted—say one month.** Many who grow their own seeds order this collection year after year, from which to grow the stock plants. Pansy plant growers plant largely of our strains, as the stock always sells. We invite comparative and competitive trials.

## Bulbs, Azaleas, Etc.

We have arranged with large growers of Bulbs, Azaleas, Palms, etc., to handle their products direct to the consumers on a small commission, which enables us to make very advantageous prices on a full line of florists' stock. Send us a list of your wants, naming kinds and quantity of each, and get our special prices by return mail. Lack of space prevents our offering here more than a few leading items. Special list on application.

# THE BEST PANSIES FOR FLORISTS.

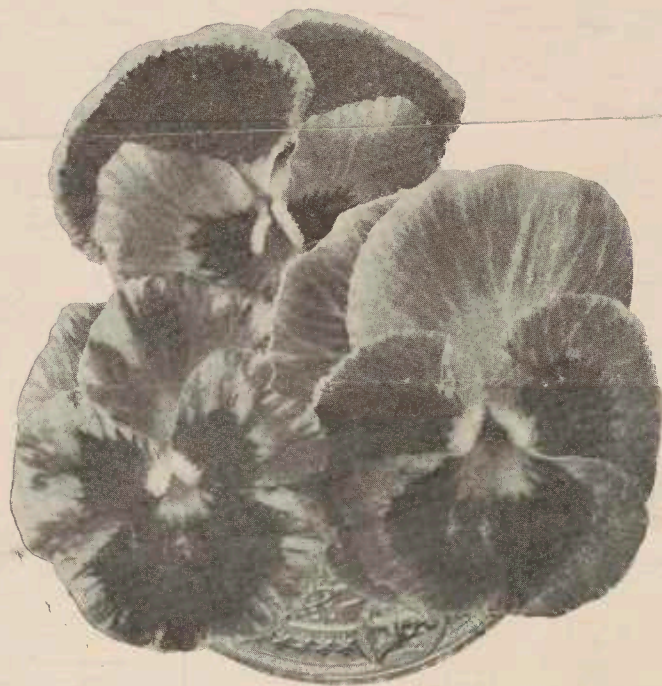

**2632. New York Giant Market Blend.** A mixture of robust, hardy, free flowering giants of fine colors with a good percentage of yellow, blotched, and light grounds. We grow and harvest the seed in separate kinds and colors from the best large flowering plants, and make the stock up from a set formula by blending the proper quantities of each together, thus securing an even and uniform strain that is so popular and in good demand around New York city. While the blend will not produce the variety of colors and flowers of as great substance as our New York Fancy Show Blend, No. 2710, it is a very fine mixture of large-flowering kinds, and suitable for florists who need a real first-class stock and yet compete with their rivals on moderate prices. Price of seed, prepaid, packet of 125 seeds, 7 cents. Trade packet of 2000 seeds, 50 cents. Trade packet of 5,000 seeds, \$1.00. Ounce, \$2.50.

**2710. New York Improved Fancy Show Blend.**—For variety of color, shades and markings, it has no equal, as it is made up after harvest, from 35 best and newest colors, besides over a dozen celebrated strains and mixtures selected from all classes and races, with the principal object of getting the best bloom of extra substance and perfect formed giants in the choicest dark colors and shades. Over 100 distinct colors and markings are produced from this blend, many of which are exhibition and therefore it is the best *High Grade Florist's Mixture* ever offered. We have many customers who write that this blend produces better and more colors than the \$8.00 to \$12.00 mixtures offered by seedsmen. We have again improved it by adding several new colors this year, but keep to the popular old price of 125 seeds, 10c. Trade packet 2,000 seeds, 80c. Trade packet 5,000 seeds \$1.60 Ounce, \$4.00.

**2709. New Buttercup Blend.** This is an extra mixture of yellow and golden flowering kinds selected from all races, and is grown and treated the same as 2632 to secure uniform quality. We guarantee that every plant will produce flowers with yellow or gold in them—from solid yellow in different shades to spotted, marbled, blotched and banded flowers in fire and gold. Where the fashion requires yellow in pansies, this is the best for florists' use and far ahead of the yellow kinds offered for this purpose, it being varied in the shades of yellow and gold. Price of seed, prepaid, packet 125 seeds, 8c. Trade packet, 2,000 seeds 60c. Trade packet 5,000 seeds, \$1.20. Ounce \$3.00.

**2737. Prize Medal Award.**—We offer this mixture to fill a demand for strictly fancy exhibition prize stock, and recommend it to those who wish to exhibit at high class shows or those who take great pains in the growth and development of the pansy. It is made up from seed saved and numbered and named prize awarded plants of rare blotched kinds, penciled and marked in greatest perfection, so desirable, yet so difficult to develop. It does not contain any selves or as great a variety of colors as our Fancy Show Blend, No. 2710, and is not intended for ordinary bedding or florists' sale stock, except those who have a critical trade and can get the proper prices. With ordinary care and culture, or with the masses, it will be a disappointment, but under special care and cultivation, mammoth round flowers of surpassing substance and quality will be produced. Packet, 125 seeds 30c. Trade packet, 2,000 seeds \$2.40. Trade packet 5,000 seeds, \$4.80. Ounce, \$12.00.
